U.S. DENOUNCES JAPAN AS AGGRESSOR IN INDO-CHINA; INTERESTS MENACED

U. S. GOVERNMENT STRONGLY CONDEMNS **ACTION OF JAPANESE**

LONDON QUARTERS STATE NAZI INVASION OF RUSSIA **SLOWING DOWN**

By The Associated Press The United States government strongly denounced Japan as an aggressor in French Indo-China today as Japanese warships were reported off the Indo-China coast, presumably to occupy naval bases within easy striking distance of Singapore, the Netherlands East Indies and

the Netherlands East Indies and Manila.

In Washington, Acting Secretary of State Sumner Welles issued a formal statement declaring that Japan's action in Indo-China was a primary step for new "movements of conquest in adjacent areas."

Welles said that the Japanese move to France's Far East colony menaced American security and thendangered American territory and interests in the Far East.

In the war in the west, meanwhile, authoritative quarters in London declared that Adolf Hitler's invasion of Russia was slowing down if it had not entirely halted, and, at Russia's back door, there were unconfirmed reports that Japanese and Soviet troops had clashed on the Manchoukuo-Siberia frontler.

Japanese warships were reported off Cau St. Jacones and Cam-

choukuo-Siberia frontler.

Japanese warships were reported off Cap St. Jacques and Camranh Bay, on the French Indo-China coast, after the French were said officially to have yielded to Tokyo demands for air and naval bases in the French colony.

Disprether from Saigon, Indo-China, well-ared also that 12 Japanese St. Left ransports were en route to Saigon less than 700 miles. anese transports were en route to Saigon, less than 700 miles by air writain's key naval stronghold at Singapore.

Meanwhile, as Premier Musso-lini's high command claimed a smashing attack on a British con-voy in the Central Mediterranean four ships sunk and seven

The rates would start at five per cent, on sales of \$100,000 to \$500,000, increase to 10 per cent on those from \$500,000 to \$1,000,000 and reach a maximum of 15 per cent

ERN BATTLE FRONT

See RUSSIAN, Page 7. source reported. STUDENTS THEMSELVES OBJECT

COUNTY JUDGE MADE STATEMENT RELATIVE TO BOND ASSUMPTION

NAVARRO COUNTY ROAD DISTRICT LEVIES MUST BE INCREASED BY COURT

E. D. McCormick, county judge of Navarro County, Tuesday after-noon issued the following state-ment relative to the failure of the Legislature to re-enact the bond assumption act whereby large sums of maturing bonds and interset in various sections of Texas will revert to the tax burden of the counties, including Navarro County, where road district levies will be materially increased. The federal research men want a better meat hog, one that thrives

"The Forty-seventh Legislature of Texas adjourned without re-enacting the Texas Bond Assumption Bill, a law which has provided for Hill, a law which has provided for the state to assume certain county bonds which were issued to pay for the county roads, and which have been included in the State Highway system. These bonds have been paid by refunding to the countles one cent of the gasoline taxes.

Failed to Concur.

"The House and Senate refused to concur on any program or specific bill for the re-enactment of this very valuable Legislation, and this very valuable Legislation, and as a result the counties of Texas face certain terrific rises in tax rates. The officials of the several counties spent a great deal of time and personal funds in doing everything possible to convince the Legislators of the necessity of retaining the Bond Assumption Act and the officials of Navarro County used all their efforts to protect the tax payers against this calamity. calamity.

"As a member of the Legislative Committee of the County Judges and Commissioners' Association, I repeatedly contacted our Repre-

and Commissioners' Association, I' repeatedly contacted our Representatives and Senator expressing to them my peoples' desires in this matter, and yet they did not unanimously vote for the bill.

Taxes to Be Up.

"Navarro County property owners will probably suffer as much as any tax payers in the State. Those who live in road District No. 1 have been paying \$30,445.00 annually on road indebtedness with a tax rate of forty-three cents, while under the provisions of the Bond Assumption Act, the State has been paying \$63,554.40 in this same district; in other words, the State, by refunding one cent of ten gasoline tax has been paying more than twice as much as the people in the vicinity of Corsicans, and it is easy to see that it will be necessary for the Commissioners' Court to more than double the forty-three cent tax.
"Road District No. 12, with a

necessary for the Commissioners' Court to more than double the forty-three cent tax.

"Road District No. 12, with a tax rate of 80 cents, has been paying \$3,228:00, annually, while the State paid \$3,188.40, thus it can be seen that the tax payers of this road district must expect a raise of approximately two times what they have been paying.

"The over-all average road tax assessment in Navarro County now is less than forty-five cents, whereas in the future, it will be necessary that this tax be almost eighty cents, because of the inactivity of the bond act.

Contact Legislators.

"It is almost time for the Commissioners' Court to set the tax rates for another year and it behoves all of our citizens to contact our Legislators, especially our Senator, for the Senate was the place where the bill failed, and urge those men to be willing to get this law re-enacted.

"The real truth of the matter is the Bond Assumption Law dies not expire, but the appropriation

the Bond Assumption Law dies not expire, but the appropriation upon which the bill depends expires, which amounts to the same thing as far as the tax payers of Navarro County are concerned.

"We must get an appropriation let our Senator know how they feel will not call a special session of the Legislature and the people can get it done if they will session. The incoming Governor, Coke Stevenson, has signified that he will not call a special session unless there is some definite assurance the Bond Assumption Law does

BARNYARD EVOLUTION The Hogs Take On Hourglass Figures In Science's Search For Better Pork

(Second of five articles)
By JOHN GROVER
AP Feature Service Writer

AP Feature Service Writer

BELTSVILLE, Md.—The hog
breeding lot at the U. S. experimental farm is a "beauty parior"
where they're giving hourglass
figures and new complexions to
a bunch of pigs.

Serious scientists are concerned
about the shape of a hog's hind
leg and worry about the rosy
blush on his bristled skin. It isn't
silly—it may mean millions to
farmers in the U. S. midiands,
where community economy is

a better meat hog, one that thrives under U. S. conditions, utilizes his feed to attain market size sooner, and yields a leaner, more de-sirable carcass.

They started their experiments

when vegetable oils began to cut heavily into the lard market, U. S. breeders had developed the bost ard-type hogs in the world—waddling blimps upholstered in fat. The hog experts feared a day when U. S. hog raisers would be penalized because the lard-type hog doesn't produce the lean meat cuts considered idea! cuts considered ideal.

So they set about developing a meat-type breed, as insurance

against the day when lard-type hogs might be uneconomic and consequently unprofitable. Subject To Sunburn

Ann Wickard, daughter of the Secretary of Agriculture, examines one of the products of federal scientists' search for better farm animals. The pig is a cross between the Poland China and the Danish Landrace. It conforms to the new style in hogs-calling for more lean meat.

Landrace hogs, and gradually replace the lard-type porkers? It isn't that simple.

The Landrace is a pinky-white hog. His complexion is all right in cool Denmark, but he sunburns something scandalous in the Midwest. A sunburned hog mopes and loses weight, runs up feeding costs. The Landrace legs were took weak for big U. S. farms where a hog must rustle his groceries. Hogs had never had to develop long-range underpinning on tiny

So the U. S. experimental farm tackled the problem of re-assembling divergent breeds into a composite hog to fit American requirements.

more loin.

hogs might be uneconomic and consequently unprofitable.

Subject To Sunburn

Denmark had developed such a breed, called the Landrace hog. These yielded a higher percentage of hams, bacon and lion, less sheer fat. Landrace bacon is as high as 40 per cent lean meat, compared to lows of 12 per cent in lard-type carcasses.

Why didn't they simply import

more loin.

Experiments Not Complete

Under Mendelian law, a certain proportion of the hybrid litters in their Duroc and Poland China ancestors. These dark segregates will be mated, as the experiment of converting corn into premium creasingly larger numbers of dark complexioned hogs.

Why didn't they simply import

More loin.

Experiments Not Complete

Under Mendelian law, a certain proportion of the hybrid litters in the ideal meat-type hog. When the work is done, the custom-built" cross breds will go out to do a more economical job of converting corn into premium creasingly larger numbers of dark colority.

When the work is done, the custom-built" cross breds will go out to do a more economical job of converting corn into premium creasingly larger numbers of dark colority.

When the work is done, the custom-built" cross breds will go out to do a more economical job of converting corn into premium creasingly larger numbers of dark colority.

long-range underpinning on tiny Danish farms.

So the U. S. experimental farm

long-range underpinning on tiny necessary to bring the various type to prime market weight They compare the carcasses after

So the U. S. experimental farm tackled the problem of re-assembiling divergent breeds into a composite hog to fit American requirements.

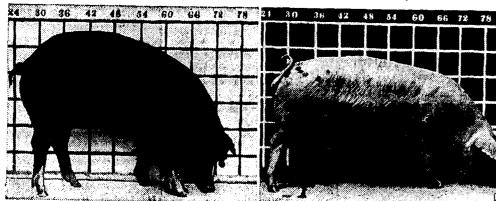

The scientists crossed the Landrace with black Poland Chinas and red Duroc Jerseys. They crossed the hybrid back to Landrace stock, They wanted to "fix" that ideal Landrance architecture, the hourglass figure that denotes super-hams, better bacon and more loin.

They compare the carcasses after slaughter. It's a long-time job.
There's proof at hand that they take the long view, Just now, with world conditions in chaos and the government uncertain about food that will be needed, hog prices have been fixed at \$u a hundredweight. The price is an incentive to farmers to feed hogs incentive to farmers to feed hogs and makes the lard-type porker a profitable proposition.

But the experimental farm they compare the carcasses after slaughter. It's a long-time job.
There's proof at hand that they take the long view, Just now, with world conditions in chaos and the government uncertain hog prices have been fixed at \$u a hundredweight. The price is an incentive to farmers to feed hogs profitable proposition.

But the experiments on the U. S. farm go on. When the world

S. farm go on. When the world regains sanity, and conditions are normal, there'll be a place for

The Poland China is short coupled and tall. Front legs are straight and strong, the better for roaming hig midwestern farms.

Poland-Landrace Cross has long Landrace body, less fat on jowls. Stronger legs, and darker color will be developed.

there is some definite assurance that the Legislators will not spend all their time arguing and wrangiling, and in view of this splendid attitude, the County Judges and Commissioners' Association of Texas is and average to get the supraas is endeavoring to get the signa-tures of the majority of senators to an appropriation bill so that Mr.

as is endeavoring to get the signatures of the majority of senators to an appropriation bill so that Mr. Stevenson can be assured of some definite action.

"It is my plan to stir up as much interest as possible in this Senatorial District in order that our Senator will sign the bill, a copy of which is in my possession. If the Senator refuses to approve this bill, he will be taking the position that he will penalize the people of his district just because he cannot get the law changed like he wants it.

"The service of senators appropriation of the East Texas Chamber of Commerce, died at a hospital today of complications resulting from a streptococcide throat infection.

Furs Will Cost Less---In 1950 Reason: A New Blend Of Sheep

(Third of Five Articles.)
By JOHN GROVER
ociated Press Feature Writer. BELTSVILLE, Md. — They're blending sheep like whisky on the U. S. experimental farm, and what they get is swank fur coats.

Distilleries use a little rare whisky to flavor vats of commoner beverage. The U. S. bureau of animal industry is doing the same thing, using Karakul sheep for "flavor."

It happens that broadtail, Persian lamb and caracul furs all come from Karakul lambs. The U. S. fur industry imports 250,000 lambskins a year. It would be swell if U. S sheepmen got that money.

not be afraid, but should be hold in patriotism of a continued freedom and a great nation. Then he referred to the unit of purpose between Roosevelt and Willkie, whom a few months ago were engaged in a bitter contest for the presidency as the representatives of two parties, but as danger became more imminent, they are standing shoulder to shoulder to make freedom real over the world.

McCraw appealed for a crusads

WORTHAM RESIDENT DIED WEDNESDAY AT HOME OF RELATIVE

An order passed by the commissioners court on July 14 calling for an election, Aug. 14, on issuance of 15 cents additional road and bridge maintenance tax apparently is void under Article 6790, Chapter 4, Revised Civil Statutes, which requires a petition of 200 qualified voting tax payers for such an election. Under that statute, however, the court can order an election in not less than 20 days and not more than 90 days.

The election called July 14 was on the court's own motion and not based on a petition, it was stated. Should the required 200 petitioners be secured on such a request, the commissioners can call such an election, Aug. 1, to be held on Aug. 21, one week later than originally designated.

The court advised representatives bearing a beer election petition the same time of the road election, Aug. 14, pledging the beer election call for Aug. 1.

Making Repairs On Beaton Street

Mack Jones, superintendent of public works, Thursday stated that closing of Beaton street for repairs incident to the removal of the street car rails would be postponed as long as possible and that the closing would be as short a time as workmen can complete the work.

The laying of the brick on Beaton will not be started until about 10 days hence. The completion of the laying of the brick on West Ninth avenue is expected this week. The plant for the Beaton street repairs will be opened next week and the work will be rushed.

Negro Choir to Be Heard Sunday Night At First Methodist

The Colored Methodist Episco-pal chair will render a musical program at the First Methodist Church Sunday night, starting at 8 o'clock. This will replace the regular church night services for Sunday night. This choir is a well known

musical organization among the musical organization among the colored people, and will give an hour's program of spirituals, anthems and other sacred songs. The public is invited to attend. The program is being sponsored by the music committee of the church of which Dr. J. Wilson David is chairman.

Ice Cream Social

Also cakes, pies and cold drinks Monday night, July 28th, at the Eleventh Avenue Methodist church starting at 7:30 o'clock, auspices Woman's Society of Christian Service. Public invited.

The eternal contemporaneousness and universality of the Bible's message is one proof of its supernatural origin. It bears the same fruits in the jungle of Africa as it bears in the halls of western learning. "Every Scripture inspired of God is also profitable for teaching, for reproof, for correction, for instruction which is in righteousness, that the man of God may be complete. furnished completely unto every good work."

Why "Revised Versions," Language changes, but truth is unchangeable. In time, words become archaic or alter their meanings. That is why it is desirable to have "revised versions" of the Bible, adhering more closely to the original text and to the current understanding of language. Earlier and earlier copies of the Greek and Hebrew manuscripts have been found since our King James Ver-

sion was published. We smile at the illiterate preacher, arguing against an educated ministry, who said "English was good enough for Peter and Paul, and it is good enough for me." Extreme advocates of the verbal inspiration of the Bible are confronted by the question, "Which version do you mean? The English, the German, the French, the Chi-

ports were en route to Salgon from Hainan, Chinese island off the Indo-China coast.

Camranh Bay is a naval base on Indo-China's southern coast and Cap St. Jacques dominates the mouths of the Salgon river by which ships reach Salgon.

which ships reach Saigon.
Foreign consulates there said to-day their representatives in Hanoi had been advised by the Indo-China government of a French-Japanese agreement granting the Japanese certain naval and military concessions in the southern part of the

colony.

Agreed in Frinciple.

From Vichy came the announcement that France and Japan had ment that France and Japan has agreed in principle on a basis for Japanese aid in protection of Figure interests but had so far signed nothing. Negotiations on details, it was added, have new been shifted from Vichy to Hanoi, capital of the colony.

ceptance in the present instance of measures Japan deems neces-sary to safeguard Indo-China without detriment to French sovereign-

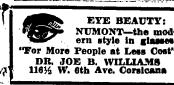

In Tokyo, the foreign office controlled Japan Times and Advertis er featured a page-one article pre-senting Japan as the guardian of French Indo-China against "Anglo-American imperialism.'

But aside from secret foreign of-fice conferences there were no in-dications in Tokyo of actual Jap-

Details Be Worked Out.
The Saigon sources also said
the agreement had been reached July 19. Apparently this was an agreement in principle on the concessions to be made but one which left details to be worked out, pre-

voyed by three warships were observed sailing southward past Hongkong, on July 18, in the direction of Indo-China. In addition, he declared seven heavy Japanese warships, three aircraft carriers and 55 destroyers were sighted moving southward from Japanese waters Tuesday.

Travel to Japan Stopped.
At Shanghai early today foreigners who had booked passage for Lepan on the Kobe Maru were halted at the gangplank and told that travel had been stopped for an indifinite period. However, 500

Japanese were permitted to go aboard. A similar ban also was invoked at Raircn—apparently to prevent foreigners from seeing the Japanese ship movements. Singapore circles heard reports that authorities at Hanoi had ordered all Franch morehant ships

red all French merchant ships remain in Indo-Chinese ports or proceed there immediately As for demands made, Vichy admitted only that the Japanese had asked the right to take military

asked the right to take military measures because of alleged military developments along the British colonial and Chinese frontiers of Indo-China, which Japan has guaranteed to defend.

British Military Preparations.
London, meunwhile, disclosed far-flung military preparations at Singapore and other British Padilic contracts readding them.

offic outposts, readying them for any eventuality with reinforcements of Royal Air Force units.

British sources asymptotic for adoption of Elisha Williams vs. Subit with the sources asymptotic for adoption. British sources expressed confidence, moreover, that as a result of continuing close consultation the London and Washington been shifted from Vichy to Hanoi, capital of the colony.

Negotiations at Vichy centered around two points: (1) French recognition of Japan as the predominant power to safeguard peace in the Orient; and (2) French acceptance in the present instance of measures Japan deems necessary.

Lon the London and Washington and Washington watched two prepared to take any measures necessary.

While gravely concerned state department officials in Washington watched the situation without public comment they were known to have planned for several months economic measures of use when the present instance of measures Japan deems necessary.

County Court.

A white man was adjudged of unsound mind Tuesday afternoon. A white woman was adjudged of unsound mind Tuesday afternoon.

Commissioners Court. and if Japan went against repeated United States protests and warnings to further upset the status quo in the Pacific.

Among these measures, one or more of which might be applied, were freezing of Japanese assets in this country just as the assets of other axis powers have been of other axis powers have been tied up, embargoing shipments of oil and other vital materials to Japan, imposing restrictions on Japanese imports, halting purchases of Japanese gold and expediting increased military aid to China.

GERMAN

cessions to be made but one which left details to be worked out, presumably by representatives of the two powers in Hanio.

Diplomatic quarters heard, meanwhile, that a formal announcement of the agreement would be made next Monday. At that time, it was expected, the nature and extent of the concessions probably will be known officially.

Such concessions have been regarded as possibly foreshadowing Japanese military expansion southward toward Singapore and the East Indies, with their rich resources of rubber, tin and oil.

The Chinese military intelligence officer at Chungking, China, togil foreign correspondents that 30 Japanese troop transports convoyed by three warships were observed salling southward past Hongkong on July 18 to the color of the command reported today.

CORSICANA, TEZ., JULY 25, 1941

EASILY SPARED EXTRAS.

"We can have necessities "We can have necessities of life and all-out defense, but the elephants, I fancy are as mamnoth at before; too, but we cannot have the and the clowns are still as funny luxuries of life and all-out defense, too."

luxuries of life and all-out defense, too."

So says Robert E. McConnell, chief of OPM's conservation section. He lists

Servation section. He lists

The luxuries that the clowns are still as funny and the acrobats today with astounding feats of daring fairly take your breath away. Well, when comes another circus to our city. I declare, certain little fellow and his grandpop will be there. some of the luxuries that are to disappear first.

There will be only 300 types of plows instead of 1,400. Galvanized fences and garbage pails will be rubber will replace cork in too. tops of soda water bottles. The Chinese know that instead of imported tapioca. the planes that destroy their

stockings will be scarcer and dearer.

These, of course, are far from being the only deprivations the American people face, but they are fairly typical. The amount of sacrifice involved is so slight as to be laughable. And yet, so rich are we as a nation that, if we act quickly enough with such conservation, the necessities may never be lost—as they already are in many lands today—or even seriously threatened.

BEAR AND DEVILFISH.

Russia has long had a bear for its symbol, and there is much point to that.

For the bear has a knack of seriously looks increasingly sinister.

For the bear has a knack of seriously at the situation that rain destruction on them have come munitions that rain destruction on them have come the munitions that rain destruction on them have come from America. They are a tolerant and patient people and believe that when American really understand the situation this collaboration with the aggressor with the situation this collaboration with the aggressor with the sagressor with the aggressor will be stopped.

If there are good reasons for permitting such traffic to go on, reasons which may be justified even in the face of China's heroic defense and Japan's cruel aggression, American citizens surely have a right to know what they are. With economy imposed on their own use of gasoline and oil and with more aid sought for China, this other folly looks increasingly sinister.

out and draw victims to its fatal embrace, killing and devouring at its leisure. It has thus sprawled over a quarter of the world, east and west and south, while producing the largest population anywhere in the world excepting India and China. It's contribution to world civilizataion has been negligible in comparison with the two great countries mentioned. Its people with many blood strains are often gifted but usually undeveloped. They may be

playing the devilfish, reaching north and east and south, and fastening its tentacles relentlessly on the soft parts of Russia that offer most sustenance. And how far that Nazi devilfish will thrust, and what new nations it will draw into its deadly embrace is heven. deadly embrace, is beyond prophecy.

Apparently the best that can be hoped now is that the two devilfish will eat the President had lost his

Ladies and Gentlemen

make sacrifices to keep the defense program in top-top progress; in high gear. It would do no good if our government sold out all the defense bonds and there was no material available to buy such material so valuable cannons, etc. We cannot afford to see a shortage of such, therefore your accumulator of scrap urges you to bring in your remote scrap such as scrap iron, steel, brass, copper, lead, zinc, rubber, and most vital of all, aluminum, your old discarded pots and pans, or anything that might be reclaimed. You do not have to give anything to anybody! Fair prices will be paid for your material, and remember, your government looks to your scrap accumulator-that he must strive to keep his tonnage rolling to the steel mills and to the iron foundries that it can be re-run into usable, valuable war machinery. So no matter how small or how large the amount may be, whether 100 pounds, 1000 pounds, or 100 tons, carry your bit in tomorrow as it will help our government to equip army and navy-our brothers and our sons-with modern weapons of war with which to preserve what our forefathers fought for-"FREEDOM."

If you have quite a bit of tonnage and no transportation, call your nearest scrap dealer for estimates F. O. B. your premises and please remember, do not hold your ma terial for higher prices until tomorrow less it be too inte for your government has set a ceiling on prices on these vital commodities and the prices will not go higher.

Today steel mills that turn out armored plate for our two ocean navy are hungry for scrap iron. We cannot afford to see an accute shortage of anything that we can avoid. Being a cog in the wheel of the nation's fourth largest industry—the scrap industry—your local scrap dealer urges you, no matter what county or what city you live. to bring in some scrap and do not put it off until it is too late, as we do not want to see any mill of any kind to have to shut down on account of the shortage of scrap material which is essential to mills holding defense contracts. And remember, your scrap dealer is the key matin national defense as it is his job to accumulate and prepare material for shipment to the hungry industries throughout the universe who are working 98 per cens

TRAINING YOUTHS TO FLY FOR ARMY **TOLD LIONS CLUB**

Progress being made in the training of flying cadets was outlined in an address by Captain O. E. Ford, Jr., of the local air school before the Corsicana Lions Club Tuesday noon at the Navarro Hotels

to train 12,000 pilots a year was recently reached and added that expanding facilities will make it possible within a short time to at-

expanding facilities will make it possible within a short time to attain the present goal.

He discussed the various stages through which the young pilots pass in their training program. The program, he said, is divided into three divisions—primary training, basic training and advanced training.

Shortly after being recruited, the cadets are launched on their primary training course, he said, which teaches the fundamental principles of flying and gives them their first 60 hours in the air in light training ships. Basic training comes next and includes heavier planes, night, instrument and formation flying with short cross country flights, he continued. Advanced training develops the cadets to a higher degree of efficiency before they are presented with their wings and commissions.

Requirements Unchanged.

Requirements for admission as a flying cadet have not essentially changed, he added.

Captain Ford was introduced by B. W. Woolley, program chairman. C. W. Taylor, vice president, presided in the absence of President F. H. Harvey, Jr., who, with Dr. William Shell, is attending the Lions international convention being held at New Orleans.

In introducing Captain Ford,

Lions international convention being held at New Orleans.

In introducing Captain Ford, Program Chairman Woolley, who is also director of the Air Activities of Texas, pointed out that since the school has been established in Corsicana, ninety-four individuals and business firms have been paid a total of \$170,000, not including the payroll which has amounted to \$90,000.

W. H. Patrick and Virgil Little were introduced as guests. Sam.

were introduced as guests. Sam
B. Werner and Gabe Goldberg
were named program committee
for the next meeting.

TWO-WAY POLICE RADIO WILL BE

Progress is reported this week in the county and city police twoway radio and broadcasting unit to be installed as a NYA project. E. D. McCormick, county judge, stated Thursday he had signed an order for miscellaneous parts for the sending unit, and it is expected the installation will be started within a few weeks. About 30 NYA boys will be employed in the project.

The two-way radio sets ordered for the city police department have arrived and have been installed on the cars of Chief. Bruce Nutt and Chief of Detectives Jeff Spencer. Until the local station is in operation, police broadcasts from other sections will be received. will be received.

The project was signed for early this year, but considerable difficulty in procuring the necessary equipment has been experienced.

TAXES

Continued From Page One)

\$\$ on those between \$00 and \$60 square feet and \$11 on those larger. It was estimated this levy would yield \$7000,000.

The measure was scheduled for committee introduction in the house today and administration leaders planned to take it to the floor Tuesday for three days of debate un'er a tight, special rule which would prohibit all but committee un'er a tight, special rule which would prohibit all but committee approved amendments. The rule is to be debated Monday. Passage of the measure next week in approximately its present form was virtually assured, leaders said. Major changes might be made, however, when the bill reaches the senate.

Though approximately to the curtain of steel flung up by anti-aircraft defenses and declared no minitary objectives had been hit.

Income Surtaxes

The treasury estimated that the new individual income surtaxes would produce \$1,152,000,000 of the new revenue ad that \$1,322,900,000 of the balance would come from corporations. The higher estates and gift taxes were counted on to yield about \$151,900,000 ad new or higher excise levies on almost two-score commodities or services for the remaining \$902,400,000.

About \$300,000,000 of the individual income tax revenue was estimated to result from a provision of the measure requiring that husbands and wives with separate incomes make joint returns. Present law permits separate revenue was addeduced to the total control of the realers were acknowledged, but many of the bombs were said to have been dropped of the city.

A number of the raiders were reported shot down by ground batteries and night fighters, which were credited with destroying some to per commodities or services for the remaining \$902,400,000.

The early morning bulletin placed great emphasis on the effectiveness of Russian guerilla forces said to be operating far behind the German line.

"Red army detachments and

arate incomes make joint returns.

Present law permits separate returns. Joint returns were expected to force the total taxable income of many families into the high surtax brackets.

In boosting the corporation taxes the committee concentrated chiefly on excess profits, hiking the rates which now range from 25 to 50 per cent to 35 to 60 per cent and revamping the method of computing such profits.

"Red army detachments and reverlighted and start the fascist lines are demoralizing the enemy's rear increasingly often and provoking panic in his ranks," the commutique said.

It declared that in one sector of the front Russian guerillas had the forman line.

Product Of Farm Research

(Fourth of five articles)
By JOHN GROVER,
AP Feature Service Writer.
BELITSVILLE, Md.—You come away from the U. S. poultry experimental farm rubbing your eyes.

You just don't believe what you saw. It's that incredible.
The scientists breed chickens almost to blueprint specifications. Big or little, dark or light skinned, specialists in egg or meat production, or a combination—just outline the type of cackler you want, and its a pretty good bet they've turned out that kind of bird in the course of their experiments.
They don't overlook the most insignificant detail in developing new chickens to meet a specif-

insignificant detail in develop-ing new chickens to meet a specif-ic requirement. The color of pin-feathers, for instance, gets serious attention attention.

attention.

Dark pinfeathers spoil the appearance of a dressed bird.

When the federal researchers developed the new Columbian breed, a dual-purpose job designed for both egg and meat production, they took pinfeathers into account, as well as skin and leg

color. American housewives pre-fer a rich, creamy-yellow skin and yellow shanks.

Started With Meaty Chassis.

To get the Columbian, they started with the Sussex, a superior meat producer. Sussex chickens

well.

Another experiment saving the nation's poultrymen money is the sex determining technique. It's difficult to tell males from females is another creation of Uncle Sam's when the chicks are just hatched indefatigable poultry researchers. It's important, too, because it's Cross-breeding reduced turkey expensive to feed a flock for layers and then discover most of them are received.

The streamlined turkey, designed for apartment house ovens, indefatigable poultry researchers. It's important, too, because it's Cross-breeding reduced turkey size from 17-20 pounds to 8-11 pounds, with no loss in quality.

No Mistake here. Male chicks have stripes, the females are sol-id color. Stripes are new.

started with the Sussex, a superior meat producer. Sussex chickens have white shanks and too-light skin. They brought in Rhode Island Reds, superior egg producers with yellow legs and skin, and White Wyandottes, which have light pinfeathers.

The Columbian has the meaty chassis of the Sussex, but the paint job is more attractive to the buyer's eye. In addition, the Columbian approaches the egg record of the R. I. Reds.

The Columbian is only one of many near-miracles worked with durk stripes running down the columbian approaches the egg record of the R. I. Reds.

Cross section of a good poaching egg, left, and a poor poaching egg. Thick albumen makes the difference.

NAVAL FIGHT

(Continued From Page One.)

(Continued From Page One.)
In an easterly direction. Fascist torpedo-carrying planes were said to have moved at once to the attack, "defying imposing anti-air-craft reaction" and numerous fighting planes sent up from an aircraft carrier.

In a running fight that apparently lasted most of the day, one steamer of 15,000 tons and another of 10,000 tons were reported to have blown up after being struck by aerial torpedoes.

Other Cruisers Torpedoed.

Also struck by aerial torpedoes during this phase of the engagement, the bulletin said, were a 10,000-ton cruiser of the Southampton type, and an 8,000-ton cruiser.

"Bombed and hit, "the high command added "were a battleship, a cruiser, a destroyer, a steamer of heavy tonnage and another unspecified unit."

After dusk Italian light naval units were reported to have joined the assault upon the convoy. Two Fascist torpedo boats were credited with sinking "a large unspecified unit" and a destroyer.

"All our ships succeeded in getting away and returned to their bases with very slight damage," the communique said. Two bombs were seen to hit a 7,000-ton ship and set it affre and the vessel later was observed submerged with its stern up while two merged with its stern up while two destroyers stood by picking up survivors, the communique said of the engage and interpeted and interpeted and the vessel, later was observed submerged with its stern up while two merged with its stern up while two destroyers stood by picking up survivors, the communique said of 5,000-ton ship "which apparently was 5,000-ton ship "which apparently was 6,000-ton ship "whi

the same convoy Tuesday night.

The Italians acknowledged that
British planes had sunk one of
their steamers Tuesday, but said

RAF Bombers Attack Nazl Convoy CAIRO, Egypt, July 24.—(R)—The RAF reported today that its bombers sank at least three ships from an axis convoy off the Italian island of Pantellaria, in the channel between Sicily and Tunisia, Tuesday.

Tuesday.

(The Italian high command, reporting four British ships sunk in a Fascist air-naval attack on a convoy in the central Mediterran-ean yesterday, also acknowledged that one Italian ship had been sunk Tuesday by the British.) One of the Italian destroyers es-

corting the convoy of four medium-sized merchant ships, also was hit by an air launched torpedo and damaged heavily at the stern, the

sent to Dallas.

The mayors of the smaller towns and school superintendents in the smaller communities have been designated as the chairmen in their respective areas and districts. A pen provided at Frost had a large collection Thursday morning, Chairman McCormick reported, and similar reports are expected from other sections later in the week.

HIGHWAY 31 BIDS BE OPENED JULY 30 MARK FORWARD STEP

A BETTER AND SHORTER ROUTE TO WACO AND WEST WILL BE RESULT

Another step toward a better and shorter highway between Corsicana and Waco on Highway 31 has been taken with the announcement the Texas Highway Commission will open bids on 11.5 miles from the western city limits of Corsicana to Sliver City, July 30.

The Dallas office of the highway department has estimated the total

road.

Engineering on the project is in direct charge of C. C. Roddy of Corsicana, junior resident engineer. General engineering supervision is under M. E. Savage, senjor resident engineer, Dallas.

best material for making candle-wick bedspreads, suggesting that for a beginner, it will be easier to make a spread of one color, than to use a combination of colors, and recommends a good size as being 97x116 inches.

Mrs. Mack Jones. the club's dele-

Mrs. Mack Jones, the club's delegate to the A. and M. Short Course this month, gave a very interesting account of what she learned while there.

"The requirements for stocking your farm pond, or tank, with fish, free of charge, through the State Fish and Oyster Commission," Mrs. Jones said." are, first, the pond must be at least six feet deep, must not go dry more often than once in five years, and must be seined to remove the fish now there, as many of the common variety of fish will eat the young fish that will be sent to you by the commission. commission.

Mrs. Jones suggested that a good

Mrs. Jones suggested that a good combination of fish to use is the channel cat and the sun perch, and recommended that the mosquito fish be used for what is its name implys. "To get your fish this year," she said, "write to the State Fish and Oyster Commission, Austin, Texas, by the first of September, giving the size of your pond, so the correct amount of fish to stock it will be sent you.

The club discussed plans for a pionic in August, some favoring

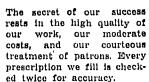

picnic in August, some favoring going to the encampment at Wa-nica Camp, providing the clubs over the county decide to have it, and others preferred a one day pic-nic nearer home so that it might be enjoyed by all the family. The decision was postponed until a later date

After adjournment and an amus-ing game of "I Packed Grandmoth-er's Grip," refreshments of cake and iced poly pop, were served to nine members, including one new member, Mrs. R. J. Roloff, three visitors, Mrs. Gabe Michaels, Mrs. Hillard Prater, Mrs. Frank Park er and the agent, Miss Rettiger.
The next meeting will be with

JAPAN NEXT?

Virginio Gayda, Mussolini spokesman, says Japan will now be forced to act against Russia. But one wonders whether Japan can get away with a "stab in the back" act any more successfully than Italy did-without becoming a vassal of Hitler.

ment the Texas Highway Commission will open bids on 11.5 miles from the western city limits of Corsicana to Silver City, July 30.

The Dallas office of the highway department has estimated the total cost of the drainage and dirt projects at \$201,000. Plans call for a 38-foot wide roadhed with eight 28-foot bridges on a new location north of the present road. The new highway, is slated to strike Corsicana at the city limits on West Seventh Avenue. The section will be paved later, when funds are available. Highway 31, according to the highway department, is a part of the war department's strategic military highway system. Its improvement at this time is ordered in keeping with the department's policy of concentrating available funds on highways considered by national defense agencles of strategic importance.

The present distance of 60 miles to Waco will be reduced to 52 miles by the new location. This saving and multiple between Corsicana and Hubbard. A dirt and drainage project is under construction between Mt. Calm and Dawson, leaving the only gap that sector from Silver City to Dawson.

The new location will also provide a modern highway for not select engineer. General engineering supervision is under Mt. E. Savages, sentiation and the construction between Mt. Calm and Dawson, leaving the only gap that sector from Silver City to Dawson.

HUGE WAGE DEMAND MADE BY RAILROAD WORKERS THURSDAY

CHICAGO, July 24.—(R)—American railroad workers laid a multimillion-dollar demand for wage increases before the Class I carriers

creases before the Class I carriers today.

Starting the complicated machinery set up for railroad labor negotiations, representatives of the five operating unions were the first to meet with committees designated to speak for the 125 lines which operate 99.1 per cent of the nation's railway mileage.

They were prepared to argue for a 30 per cent increase in basic rates of pay for approximately 350,000 workers.

rates of pay for approximately 350,000 workers.

Tomorrow the carriers' committees will convenc with negotiators for 14 non-operating unions and listen to demands for wage increases of from 30 to 34 cents an hour for about 800,000 additional employes.

Decries Petition

Army Chief of Staff General George Marshall, speaking before available on the House Military Committee, ween Japane Wednesday denounced as danger- in the East. ous sabotage what he called efforts to have draftees petition Congress against extending service of selectees and national guardsmen with army.

WHEELER

(Continued From Page One.)
reached officers and men in the
army," the Montanan continued,
"but they were not directed primarily to that group."

marily to that group."

Not Subversive.

"I don't think that is subversive to quote the President of the United States or any of the other men quoted on the card," Wheeler added.

As to Stimson's statement about the nearness to subversive activities and treason, the Senator asserted:

DRAFT

of reservists and selectees to 16 said, the Japaness wanted Saigon airport, less than 700 miles air line in Senate military committee, General Marshall said that Taft's Ready for Counter-Action.

Washington dispatches said the United States and Great Britain a long range plan for peacetime procurement and training purposprocurement and training purpos-

length of service indefinite.

Marshall said:

"The present grave international situation prompts me again to request that Congress remove, by joint resolution or some other form of legislation, the restriction clauses in the present law affecting the reserve components and selectees, in order that the war department may have the maximum flexibility to meet any situation which may rise."

Business Visitor.

order on Japanese assets in this country, an embargo on oil and other vital materials, the halting of U.S. purchase of Japanese gold, and increased military aid to China.

2. Possible military action by Great Britain.

Saigon sources reported that Vichy had agreed to military and naval concessions on July 19, but details appeared to have been left to be worked out at Hanoi. Diplomatic sources said in Washington that formal agreement was expect-

INTERNATIONAL

(Continued From Page One.) (Continued From Page One.) others damaged, the authoritative fascist editor, Virginio Gayda, asserted there was a "suspicion more than well-founded" that United States submarines were operating with the British fleet in the Mediterranean.

Violent Fighting Continues.
On the Russo-German war front violent fighting continued without a decisive turn in the conflict.

a decisive turn in the conflict. DNB, the official German news agency, asserted that a large Russian force encircled at Nevel, north of Vitebsk on the central front, had been smashed by Nazi troops "with extraordinarily heavy loss-

prisoners were captured.
Hitler's high command, once
more acknowledged "strong local
resistance" by Soviet troops, de-

"The operations of the German armed forces and of their allies are taking their planned course on the entire eastern front in spite of difficult roads."

German bombers attacked Mos-cow for the third successive night, the Nazi war bulletin said, pound-ing "vital military objectives."

The Russians said that the raiders, 150 strong, inflicted some cas-ualties in another five and one-half hour assault, but that no military objectives were hit.

Jap-Soviet Clash.
Few details were immediately available on the reported clash between Japanese and Russian troops

Japanese army press headquarters in Shanghai said they had "heard nothing", of such fighting.

Far East dispatches in recent days have indicated that Japan would probably attack Russia from

the East, along the Siberian fron-tier, if and when Russia's Red armies in the West collapsed un-

armies in the West collapsed under Nazi invasion blows.

London advices, picturing the German onslaught as having lost its momentum, declared there had been no re-grouping of Nazi armies for a third assault in the 33-day-old conflict—such as might explain the present slowdown.

Bitter Fighting.

The Soviet high command re-

FLYING CLUB IS

NOW IN PROGRESS

The club will have for its purposes giving of flying instruction at nominal rates, and will also be available for charter trips and for passenger hopping on week-ends.

A Rearwin Sportster, training ship, owned by the sponsors is now located on a field about a mile from Corsicana on the old road to Lake Halbert which quits Highway 31 east about Fourth Street.

Both Pruitt and Creviston are instructors at Air Activities of Texas and also are licensed as instructors by the CAA. Further information about the club may be secured by calling 579.

Will nell when the futt doesn't contain acid. Grapes, plums, peaches, raspberries, and other such fruit needs pectin to make good jelly, To strain the juice through a flannel rag makes clearer jelly than strained through just any ordinary rag or strainer. She explained to test the pectin found in fruit was to use one teaspoon juice and one teaspoon dentired alcohol. Be sure to use this test when in doubt. Test the jelly by dipping spoon in degreacy. If jelly is done, two drops will form on the spoon. They will then run together and break off, and not string from the spoon. To make good jelly, never

German bombers attacked Northwest England and Scotland during the night, but were reported to have caused little damage.

Italy's role in the war, almost completely overshadowed since the fall of Greece last April, gained attention with warn and served refreshments to 23 members, and the served refreshments to 23 members. fall of Greece last April, gained at-tention with reports of an Italian victory in a fierce air-naval battle in the central Mediterranean, last-

in the East.

Dispatches from Shanghai said the fighting was reported to have started last evening in the vicinity of Changkufeng, the scene of a Russo-Japanese "vestpocket war" in the summer of 1938.

There was no immediate confirmation of the reports, which were said to have come from sources said to have come from sources solose to the Japanese almilitary, and Japanese army press headquarters in the central Mediterranean, lasting from dawn to darkness yesterday.

Premier Mussolini's high command declared that Fascist warplanes and light naval units attacked a big British convoy and sank two explosive-laden steamings of 15,000 and 10,000 tons; topedoed a 10,000-ton cruiser and an 8,000-ton cruiser; bomber a battle-ship, a cruiser, a destroyer, a language of the control of the reports. mand declared that Fascist warplanes and light naval units attacked a big British convoy and sank two explosive-laden steamships of 15,000 and 10,000 tons; topeded a 10,000-ton cruiser and an 8,000-ton cruiser; bomber a battleship, a cruiser, a destroyer, a heavy steamer and "another unspecified unit," and sank a dedestroyer and another large ship. Simultaneously, the authoritative Fascist Editor Virginio Gayda asserted there was "suspicion more than well-founded" that United States submarines were operating with the British fleet in the Mediterranean.

At a stunt contest last night the cowboy band of Hardin-Sim-mons College, Texas, won first prize, Irene Perrone of Port Ar-thur, Tex., was second and the Oklahoma A. and M. quartet, In some instances, continued rains have seriously damaged ap-proaching roads and caused impass-ible gullies, but these have been remedled. The units are composed of stone barbecue pits, tables and seats, and are located in the same vicinity of the club house, boat house and CCC third.

Well-known Furrier Plunged to Death Chicago Thursday

CHICAGO, July 24.—(R)—Wearing a suit jacket over his pa-jamas and a black sleeping mask on his forehead, Richard Jackel, 55, widely known New York fur-rier, plunged to his death today from the 21st floor of a Michigan Avenue hotel. On Feb. 5, 1940, Jackel fell 10 floors onto a New York apart-ment house entrance canopy, but suffered only a minor head in-Bolivar Roads Tunnel
GALVESTON, July 24.—(P)—
Delegations from Galveston, Port
Arthur and Texas City appeared
today before Lieutenant Colonel
L. H. Hewitt, U. S. district engineer, in support of Galveston
county's application for a permit
to build a tunnel, trestie and
causeway across Bolivar Roads
for vehicular traffic.
Representatives of the Houston Port Commission and the
American Merchant Marine Institute opposed the project as outlined in present plans. They said
they favored a tunnel of greater
length to lessen navigation hazards.

They said his uncle had been
in li health for two years and
was returning from Hollywood
where he had a large clientele
among motion picture stars. His
wife and child remained in Hollywood.

Wheat Growers Must Aid Control Program

a statement cautioning wheat farmers that unless they cooperate with next year's rigid crop control program they may expect to encounter new difficulties in disposing of their grain.

The statement, informed quarters is an unexpected new demand for American wheat in the meantime, the department will find it necessary under terms of the AAA act to invoke strict marketing quotas on the 1942 crop. This year's crop is being sold under a marketing quota system which some farmers have criticized severely.

Immediate Start On Four Army Projects

Southwest Ordered FORT SAM HOUSTON, July 24.

—(P)—Work will begin immediately on four new army projects in Texas and Oklahoma which together will cost over \$12,000,000; it was announced by the zone constructing quartermaster at Fort Sam Houston today.

The American Construction company of Houston has been awarded an \$888,690 contract for con-

ed an \$888.690 contract for construction of motor repair facili-ties at the Normoyle quartermas-ter depot in San Antonio.

At Fort Sam Houston a contract has been negotiated with the McKenzie Construction company of San Antonio for additions to the quartermaster depot costing \$972,000.

W. R. Grimshaw company of Tulsa has started work at Fort Sill, Okla., on a maintenance shops, warehouses and necessary utilities for the Third Echelon median and the start of tor repair equipment. They will cost about one million dollars.

An ammunition storage depot with administration and utilities arrand the necessary roads, rail-roads and utilities is to be built near Texarkana, Texas by Brown and Root, Inc., Houston general

Weatherford Farmer Slain by Officers

WEATHERFORD, Texas, Mily 24.—(A')—C. J. Hill, 57, a farmer who lived two miles south of here, was shot and killed by officers on the public square today.

Hill had been arrested by Bill Bledsoe, deputy constable.

Bledsoe said that Hill drew a 245 caliber pistol and started firing on

the constable and City Policeman Lev Terry.

The officers returned the fire and one shot passed through Hill's body. He died a short time later.

Hill's revolver showed one shot fired, while five others had snap-ped.

District Attorney Jack Borden filed murder charges against Bled-soe and Terry. he constable and City Policeman

soe and Terry.

A hearing was scheduled this afternoon.
